

Finding Undercarriage Inspections

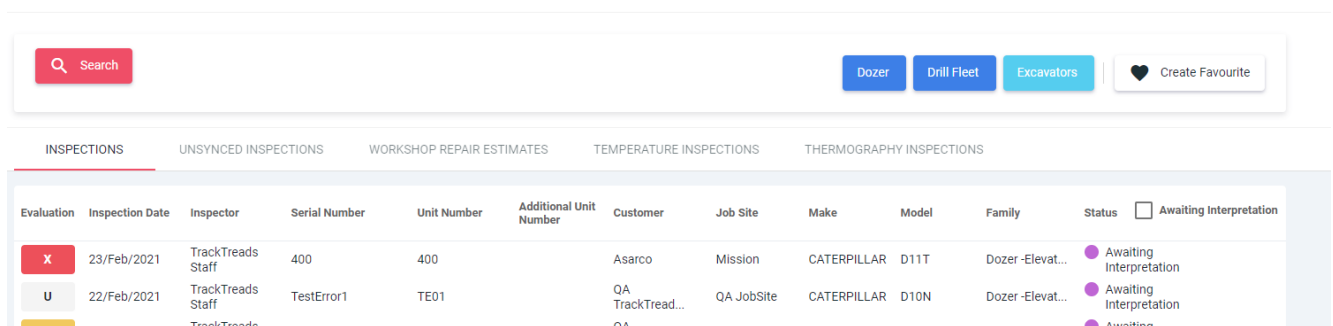

There are several types of Undercarriage Inspections that the system can complete.

- Component & Observation Point Inspections
- Offline Component Inspections (Unsynced Inspections)
- Workshop Repair Estimates
- Temperature Inspections
- Thermography Inspections

All of these are found using the Inspection Search Screen which is found under the Inspection Menu Item

Click on this menu item and the screen below will open.

Evaluation	Inspection Date	Inspector	Serial Number	Unit Number	Additional Unit Number	Customer	Job Site	Make	Model	Family	Status	<input type="checkbox"/> Awaiting Interpretation
X	23/Feb/2021	TrackTreads Staff	400	400		Asarco	Mission	CATERPILLAR	D11T	Dozer -Elevat...	● Awaiting Interpretation	<input type="checkbox"/>
U	22/Feb/2021	TrackTreads Staff	TestError1	TE01		QA TrackTread...	QA JobSite	CATERPILLAR	D10N	Dozer -Elevat...	● Awaiting Interpretation	<input type="checkbox"/>
	TrackTreads		QA	● Awaiting	<input type="checkbox"/>

The Search button will then open a selection criteria to allow you to find the Inspection you require.

Use all or some of the fields to select the Inspections you would like to view, then select the tabs depending on the type that you would like, either Inspections (being the default) or other type required.

✕ Search
